TOR ERIK GRIMEN

Born 21. April 1992 | 94140351 | Tor_Erik_Grimen@Hotmail.com

- Experience with Python, Javascript, C, SQL, HTML, CSS, Git/Github
- Creative, curious and strong problem solver.

Projects

Adventure Planner
https://github.com/torerik123/adventureplanner
- Website where users can create packing lists for backpacking trips or other adventures. Shows the total weight for all the equipment, which is useful when you're going to carry everything on your back for several days. Users can also share packing lists with others through the «Explore» section.
- **Front-end:** HTML, CSS, Javascript
- **Back-end:** Python, Flask, PostgreSQL

Is it any good?
https://github.com/torerik123/books
- Website where users can look up book reviews. I made this project to learn more about using APIs to get and display information. The site uses 3 different APIs to show most popular books, information about a particular book and book reviews. This was also my first introduction to object-oriented programming and using SQLAlchemy ORM.
- **Front-end:** HTML, CSS, Javascript
- **Back-end:** Python, Flask, PostgreSQL

Quiz
https://github.com/torerik123/Quiz
- Trivia quiz made with Javascript. The quiz contains 10 questions and keeps track of the number of correct answers. When the time runs out the users has the option to restart the quiz.

Tic Tac Toe
https://github.com/torerik123/tictactoe
- Tic Tac Toe made with Python and Flask.

Courses

2020
CS50 - Introduction to Computer Science   HarvardX
- Online course from Harvard university that covers fundamental principles of programming, datastructures and algorithms.
- Through this course I gained experience with Python, Javascript, C, HTML, SQL, and frameworks like Flask and Bootstrap.
